

Do you have things you want to sell or get rid of? Do you need to have a yard sale BUT ...

- You **DO NOT** have enough items to have a yard sale on your own.
- You **DO NOT** have a good location for a yard sale.
- You **DO NOT** want people in your yard.
- You **DO NOT** live in an area that allows you to have a yard sale.
- You **DO NOT** want the hassle of getting a permit.
- Or any other reason.

Well this might just be the answer. I will be having a group yard sale and am inviting you to participate. This will be the eighteenth yard sale we have had. The others were a lot of fun and some made some money too. If you are interested in this please fill out the [Yard Sale Request Form](http://www.mysorefigtree.com/yardsale.php) found at www.mysorefigtree.com/yardsale.php and I will add you to the list. The sooner you can let me know if you are interested the better. Below you will find some answers to questions you might have before deciding if you are interested or not. If you have other questions just ask.

- The date has been set as September 23rd so if interested get registered today.
- The group yard sale will be at my place in Estero.
- It has a great location for a yard sale being close to Corkscrew and 41. There is a lot of traffic in the area.
- It has plenty of space to set up tables or just place on the ground.
- Plenty of parking.
- I will make the signs and place ads in the Café Group and other sites.
- This offer is free.

Need to bring your items by early? No problem. I will need you to have your items in boxes as much as possible with your name on each box. I will start accepting items a few days before the yard sale on Saturday. Want to set up the night before? No problem. Contact me for more information.

I believe this is going to be big. I have had several people say they wanted to join in and the more the merrier. The more people we have the better chance is that you will make more money off your items. Join in and have fun with us. I have room for all!!!

Thanks and hope to hear from you soon,
Paul
